

NOTES

1. Dimensions in millimetres. Lengths from the aft face of the rear cabin bulkhead (datum, origin circle); heights from the underside of the baseplate.
2. Sections A-A and B-B are on the centreline and drawn in first-angle projection about the plan, so B-B is inverted with its baseplate towards the plan and all lengths align. The plan is cut 1300 above the floor; items above the cut are dashed.
3. Finishes: walls ash-faced 9 ply; ceilings painted T&G; floors engineered oak (lobby, galley, saloon), carpet (bedroom), vinyl (bathroom); solid oak worktops; bathroom walls painted T&G with PVC shower panels.
4. Stove: 4.5 kW multi-fuel on a raised non-combustible hearth projecting 225 in front and 150 each side; 25 calcium silicate shields on 10 air gaps; 125 flue; removable chimney (BS 8511, BSS).
5. LPG: 2 x 13 kg propane in the foredeck locker, opening to the outside only, drained overboard through 19 ID from its lowest point above the waterline; cooker with flame-failure devices and a shut-off valve.
6. Safety: CO alarms to BS EN 50291 in the saloon and bedroom, smoke alarm in the galley, 5A/34B extinguishers at both exits and the galley, fire blanket by the cooker. Exits: stern doors, bow doors and side hatch.
7. Concept general arrangement, not for construction. Scantlings, stability (ISO 12217-1, RCR category D) and systems to be confirmed by the builder.

LEGEND

- FE — Fire extinguisher 5A/34B
- FB — Fire blanket
- CO — CO alarm
- SA — Smoke alarm
- Engineered oak
- Carpet
- Vinyl
- Tiled hearth
- Hidden / above the cut
- Centre line, cutting plane, DWL

PROFILE FROM STARBOARD 1:50

ROOF ROOF AND DECK PLAN 1:50

C-C MIDSHIP SECTION AT b 7100, LOOKING FORWARD 1:20

PRINCIPAL PARTICULARS	
Length over fenders	17,370 (57'-0")
Length of hull	17,150
Beam over rubbing strakes	2,080 (6'-10")
Beam over plating	2,054
Cabin length	12,850
Draught aft / forward	620 / 480
Air draught (no chimney, vents)	1,632
Headroom on centreline	1,902 (6'-3")
Displacement, design	17.3 t
Stern	semi-traditional
Engine	approx. 43 hp diesel
Propeller	457 dia, 3 blades
Plate base/hull/cabin/roof	10/6/5/4
Berths	2 + 2 occasional
Design category	RCR D (inland)

TANKAGE	
Fresh water, integral, bow	702 L
Diesel, integral, counter	239 L
LPG, foredeck locker	2 x 13 kg
WC	cassette

WEIGHT ESTIMATE (kg)	
Steelwork (plate + framing)	8,483
Fit-out	2,600
Machinery and appliances	470
Batteries (4 x 110 Ah + starter)	150
LPG, 2 x 13 kg full	56
Crew (4) and stores	520
Fresh water, full	702
Diesel, full	201
Ballast to the DWL	4,081
Displacement at DWL	17,263

NOTES

1. Waterline trimmed by the stern: 620 at the stern post, 480 at the stem. Draughts and the air draught are measured from it.
2. Weights are estimates for trim and ballasting; the final ballast is set at launch to bring the boat to the DWL.
3. CRT gauge: 17.37 m over fenders reaches the whole connected narrow network; 2.08 m beam; air draught under 1.75 m; Standedge cabin profile checked.
4. BSS: fixed ventilation to the BSS formula; LPG locker drained overboard above the waterline; CO alarms fitted; stove 4.5 kW to BS 8511.

VENTILATION (BSS)	
V = 2200U + 650P + 440F + 550H	mm2
U unflued (LPG cooker)	7.0 kW
P persons	4
F flued, not room-sealed	0 kW
H solid fuel stove	4.5 kW
V required	20,475
Required high / low, each	10,238
High: 4 x 3,000	12,000
Low: 4 x 2,500, 2 x 2,500	15,000
